

# NEW YORK CITIZENS AUDIT

## New York Citizens Audit Fact Sheet

New York Citizens Audit is a non-partisan group of citizens dedicated to restoring and maintaining the essential, founding American principle of sovereignty through honest, provable elections in New York and across the nation.

Two years ago, a group of New Yorkers set forth to determine if NY elections were fair and honest. Using publicly available voter roll databases obtained directly from state and local boards of elections through the NY Freedom of Information Law (FOIL), NYCA began an audit of those records. The initial results have been alarming: New York voter rolls have massive irregularities which appear to reflect violates of state and federal law. NYCA is now calling for an official investigation to verify their audit results.

NYCA educates officials and the public about the audit findings and generally about election law. NYCA is calling for a Resolution for an end-to-end audit of NY's 2022 general election voter rolls. Through their work, thousands of citizen volunteers from Montauk to Buffalo are inspiring hope for the renewal of NY citizens as protecters and nurturers of the basic democratic voting systems NY has inherited.

- New York Citizens Audit is a non-partisan, all-volunteer 501(c)(3) non-profit corporation.
- Over 2,000 New Yorkers have contributed to the research and public education efforts by New York Citizens Audit.
- Over 6,000 citizens statewide have signed NYCA petitions requesting an official investigation into its findings.
- 42 towns, in 15 counties, have signed the NYCA "Resolution for an Audit of New York's 2022 General Election."
- New York Citizens Audit has provided over 45 hours of public education regarding our findings to officials at the town, county, and state levels.
- New York Citizens Audit presented evidence to the NY State Police Special Investigations Unit on June 27, 2022 that seems to reflect large scale illegal manipulation of the NYS Voter database (the NY State voter rolls) and further evidence of apparent manipulation to the NYS Legislature Election Law Committees on May 1, 2023 in official LOB quarters in Albany. No action has yet been taken on these submissions.
- On August 17, 2023 New York Citizens Audit submitted an official complaint to the SBOE Division of Election Law Enforcement requesting a line-by-line explanation for 5,142,950 apparent registration violations, and 745,294 apparent voting violations, from New York's 2022 general election. No action has been taken on this submission.
